Qualitative Research uses data that cannot be measured, such as the qualitative aspects of human experience, whereas quantitative research uses data that can be measured, such as the quantitative aspects of human experience.

Three small bar charts are displayed horizontally. Each chart has a vertical axis labeled 'Percentage' ranging from 0 to 100. The first chart has a horizontal axis with two categories, 'A' and 'B', and shows bars for 'A' at approximately 65% and 'B' at approximately 35%. The second chart has a horizontal axis with two categories, 'C' and 'D', and shows bars for 'C' at approximately 75% and 'D' at approximately 25%. The third chart has a horizontal axis with two categories, 'E' and 'F', and shows bars for 'E' at approximately 85% and 'F' at approximately 15%.
